Surface the Possibilities

Leveraging three decades of pioneering innovation, we've redefined surface science once again with Caesarstone Porcelain, marking a new leap in countertop craftsmanship.

Since 1987, Caesarstone spearheaded high-quality surfaces, and is the only global innovator in premium quartz, outdoor quartz, and porcelain. Bringing the wonder of the world into your home with over 100 colors that combine innovative technology with powerful designs.

Spark your imagination with more design passion

We are obsessed with expressing the world around us, and have followed in the footsteps of ancient alchemists to explore the mysteries of porcelain with its endless creative possibilities in the heart of the home. This led us to unleash the power and passion for design through surface innovation, which traces after the true essence of endless materials and diverse visual sensations.

"From natural stone to metal to concrete, we captured a deeply nuanced palette of textures and tones," says Mor Krisher, Caesarstone's Lead Designer. "There

is warmth, rawness, and other authentic qualities that we can fully express in our porcelain countertops to let you see the world from a new point of view."

Caesarstone sparks the imagination with designs that move the soul and stir the heart around surfaces that are extremely hard, highly resistant, and exceptionally beautiful. Color, spirit, space, and style become more pronounced and the unique mood of any environment is accentuated, giving more room for pure personal expression.

As designers, we live in the future, enthralled by what we envision and spellbound by the beauty that we can bring.

We took our portfolio higher by maximizing its capacity for attaining an accurate richness of shades, tones, detail, and depth.

Our design innovation empowers you with more freedom to choose and greater dreams to follow. Caesarstone heralds in a new age of surface design that brings the world from a new point of view, inspiring life in stone.

Caesarstone Porcelain introduces three innovative properties that set the bar for Porcelain countertops:

Fortified Frame.

The Fortified Frame provides an extremely hard surface, incredibly resistant to scratches, pressure, and rupture; enabling it to stand up to the most demanding high-volume use.

High-Heat Structure.

The High-Heat Structure forms a resilient surface that is extremely resistant to high temperatures, enabling direct contact with heated objects. The blend of natural ingredients secures UV resistance, for indoor and outdoor use.

Forward Design.

The Forward Design achieves striking colour schemes, bolder veins, palpable textures, and magnified patterns in breakthrough surfaces that are simple to care for and maintain. Their Honed or Ultra Rough finish accentuates their design.

Surfaces for indoors and outdoors

High-performance surfaces that create multifunctional interior and exterior spaces

Caesarstone Porcelain is designed for increased strength, everlasting beauty, and extreme-heat resistance.

Our blend of natural raw materials makes it resilient to the elements and prolonged UV exposure, perfect for both indoor and outdoor spaces. More than ever before, people worldwide are looking for a closer connection with nature, embracing the world outside by discovering the joys of outdoor living.

Designed and tested to withstand the sun's rays and the most extreme weather conditions, our porcelain surfaces create the ultimate multifunctional space for cooking, dining, and entertaining in the comfort of your own outdoor area.

Choose from our 9 unique lifestyle designs, proven to remain fresh and timeless beautiful year after year.

From natural marble to industrial metals and concrete, each surface captures a deeply nuanced palette of textures and tones.

501 Snowdrift

A pure white backdrop that boasts the prestigious look of marble, traversed by delicate veining in golden-brown that floats over its misty base with its translucent quality veiled by a shadowy effect, in Honed finish.

504 Lumena

A pearl-white backdrop crisscrossed with crackling dark grey veins that rush over the illuminated shell-like surface with its blushed undertones, imprinting a dynamic dimension heightened by the Honed finish in a unique design that is truly innovative.

506 Mirabel

A veiled surface comprising an ivory base mixed with washed clay in a bold and complex metamorphic structure, densely traversed by wide charcoal and grey veins floating across it like clouds with copper accents, creating the opaque depth of hard marble with the soft translucency of Alabaster, in Honed finish.

413 White Ciment

A whitewashed surface softly echoing the patina of concrete and covered with a hazy imprint of a subtle mesh, cloud-like in its warm white presence yet highly tactile and raw in Ultra Rough finish.

Spaces of inspiration, designed to create perfect moments of timeless beauty.

Long-Lasting Finishes

Each porcelain surface has been crafted in one distinct finish, either Honed or Ultra Rough, to bring out the best in its design while ensuring it remains long-lasting without the need for sealants or wax.

Ultra Rough

Our most tactile finish, Ultra Rough, is a breakthrough innovation designed exclusively to bring a unique granular touch to porcelain, adding a dimension of authentic materiality.

Honed

Our Honed finish is smooth to the touch and soft on the eye, offering a special organic luminosity. Its satin sheen reflects light, while retaining a special shine that penetrates the surface to highlight deeper dimensions.
