Caesarstone Inspiration Comes to Life

Caesarstone's kitchen design concepts are created with optimal functionality in mind. Designed with over 150 colours and textures, Caesarstone's kitchens breathe life into homes and interiors worldwide.

Over the years, our global teams have created a wide array of kitchen designs from all styles.

From traditional kitchen design concepts to modern motifs, Caesarstone kitchens are ergonomic, efficient workstations that cater to the diverse

needs and preferences of diverse audiences. With high durability and beauty, Caesarstone's kitchens have ventured into the realm of nature, using a diverse range of natural materials, colours and styles, allowing you to infuse your vision and colour schemes into the kitchen of your dreams.

Kitchen Design Collaborations

Caesarstone's collaborations with designers are part of Caesarstone's ongoing designer collaborations programme which focuses on new innovative kitchen designs.

In 2014 Caesarstone will unveil two new conceptual kitchen designs in collaboration with two world-renowned design studios. These state-of-the-art designs will be available for purchase. These new concepts will re-examine the functionality in the modern kitchen and will present an original and innovative designs.

Milano Kitchen

Caesarstone's Soft Minimal kitchens demonstrate a new approach to simplicity that focuses on intelligent material combinations, subtle gradations of texture and a soft, soothing palette that exudes elegance and modernity. This is the new minimal: honest and warm materials that age with grace; the contrast of clean lines, angular forms and moulded forms balanced by comforting upholstery touches and turned woods that create a calm and sobering aesthetic
